November Egg Production Up 2 Percent in New York

Albany, NY – New York egg production totaled 120 million during November 2014, up 2 percent from last year, according to Blair Smith, State Statistician, of USDA's National Agricultural Statistics Service, New York Field Office.

The total number of layers during November 2014 averaged 4.84 million, up 1 percent from last year. November egg production per 100 layers was 2,477 eggs, up 1 percent from November 2013.

The Egg Production report and all other NASS reports are available online at www.nass.usda.gov.
